

Your Journey

as of March 3, 2018
by Adamus Saint-Germain

You are part of a small group of humans bringing a new level of consciousness to the planet. You're in the process of allowing your free energy body (also called the Light Body) that goes far beyond your ancestral DNA. You're allowing your gnost (knowingness) that goes far beyond the ancient brain.

You are allowing the Master (wisdom) to be in your human life. You are changing your relationship with energy in order to experience the Ahmyo Life. And you are releasing yourself from the gravity of mass consciousness.

That's why we say "No More"... no more battles, causes, games, karmic relationships, or other distractions that would take you away from your journey into Realization.

And you're doing all of this while humanity is embarking on a new direction in its evolution, what I call The Time of Machines.

What you are doing has its origins in the Temples of Tien, the times of Yeshua, and the Mystery Schools. It is done simply: Understanding what is going on, and allowing what is natural.

But it is not for the faint of heart. There are intense changes in your body. You'll have times of disorientation in your mental, logical and emotional balance. And there will come disassociation with many friendships, family connections and other karmic relationships.

You face many challenges, but they are not nearly as daunting when you understand what is going on. You'll have doubts, mostly from old psychological programming and hypnosis. You'll get impatient, wondering why this takes so long. It's important to allow for these quantum energy adjustments as to not throw yourself totally out of balance.

You'll experience times of low energy as your body and mind shift away from old sources of energy. And for some, the old ghosts of deeply ingrained abundance issues will haunt you, but ultimately this is really about worthiness.

Your current focus:

You are changing your personal relationship with energy, going from the Law of Attraction to the new I Am, Center of Creation.

You're beginning to allow the wisdom of the Master into your human life. This brings forth the New Thinking that includes wisdom and consciousness rather than just the human brain.

What can you – and should you – do?

Understand that Realization is real for you, and that it is a natural occurrence.

Understand what is happening within you, and why.

Allow, rather than resist or control. There is nothing to fight or effort.

Realization is here for you as you choose and allow.

But it is not for those who seek power, or the perfection of the human condition.

Some come and some go. Others like the distraction from their everyday life.

A few are ready, and allow themselves to be worthy.

The Crimson Council recently adjusted for the needs of Shaumbra. The Council is now dedicated solely to Shaumbra who are ready and allowing.

What dreams may come?

“To awaken, perchance to dream—ay, there's the rub, or in that awakening what dreams may come when we have shuffled off this mortal coil, must give us pause.”
