

THE FOURTH ASPECT

MSEC 2006 TOBIAS

(excerpts)

in the original design of the bio-psycho nature of humanity, there were four aspects

the body;

[you never want to reject or deny your body. when you do, it will respond. it will start shutting down, it will cause disease, it will cause certain types of imbalances that make it more difficult to live on this planet]

there was also the mind;

[the mind isn't a bad thing. the mind is not where the ego is. the mind is just trying to do what you've asked it to do. but it is taxed and it is overworked.]

there was the spirit or the life energy;

[spirit is just life force, the breath, the original. spirit and the breath mean birth. movement of energy.

the spirit also involves all aspects of yourself. it is the total being. right now in the consciousness of humanity, spirit is so misunderstood. it is so distorted]

and there was another component – a beautiful component – called “dei un gnost.”

it was shortened over a period of time to be known just as “gnost,” but the original pronunciation was “dei un gnost.”

dei un gnost is also the core of passion in the human existence. it's the fourth piece. it's not spirit and it's not the mind. the best way to explain dei un gnost is that it is knowingness, but not knowingness from the mind. it is creativity, but not creativity from the mind.

it's the component that is creative and that is knowingness. it's not intuition either. it is the ability to bridge between the nonphysical realms and into the crystalline realms and bring that energy and

that consciousness down into the earthly realms. it is the ability to very rapidly manifest dreams using the balance of body, mind, gnost and spirit. but that piece has been missing for a long, long time, and it's time for it to come back, but in a different way. now, we can't do it as a group, (you do it individually, but) we can tell you, from seeing your energy, that gnost, that the creative knowingness is ready to come back. it is time in your life. you have gone through all of the other things, it is time for that missing component, that piece to come back.
